# Greening

the  
National  
Capital  
Region

**U.S. Green  
Building Council  
National Capital  
Region**

**Green building is gaining critical mass in the metropolitan Washington, D.C. area,** with the District becoming the first major city in the nation to require private developers to build green and incorporate energy-saving measures.

Whether you're interested in green building for residential, commercial, or public-sector projects, the USGBC National Capital Region Chapter is your connection to:

- Network with hundreds of professionals from across the building industry
- Share best practices
- Access new LEED developments
- Advance green building in the National Capital Region

### Plug in, Get Active

As a chapter member you'll benefit from exclusive opportunities to exchange ideas and build relationships with green building leaders on the local scene, share information and best practices, and play an active role in advocating for green building issues and helping build consumer awareness. Visit our Web site at [www.usgbcncr.org](http://www.usgbcncr.org) and click on Events to find out about chapter activities and upcoming events.

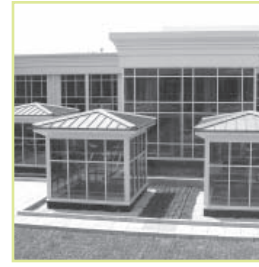

### Get the Recognition You Deserve

Get recognition as a leader in supporting a better built environment. Industry, governmental, and educational leaders, and the media are increasingly turning to the chapter to find out who is doing what in green building.

### Think Global, Act Local

Other benefits of chapter membership include:

- Member-only discounts to monthly chapter meetings
- Discounts on chapter-sponsored educational events
- Discounted registrations for LEED exam study groups
- Priority registration for our special networking events each year
- Member Directory—get your company or organization's name listed in our online membership directory
- Early notification about upcoming chapter events and activities
- Opportunities to participate on chapter committees
- Opportunities for leadership roles in the chapter

**Set yourself apart.** Promote yourself and your company in one of the largest markets in the country. Demonstrate your commitment to green building.

### Extend the Benefit of Your National Membership

Is your company already a national member of USGBC? Extend the benefits of your national membership with chapter membership for all key personnel. In addition to the ability to participate in local programs and activities, all chapter members receive local and national mailings, not just your corporate key contact.

### Go National

Membership in the U.S. Green Building Council (USGBC) at the national level is open to all companies and organizations interested in advancing green building standards. Company membership provides an unparalleled opportunity to influence change and help shape the future of green building throughout the nation—and beyond.

- Serve on a LEED or USGBC committee and help shape the future of LEED and green building. USGBC members also vote for the Board of Directors and participate in ballots of the LEED Rating System.
- Join a Member Circle to connect with the collective knowledge and experience of USGBC's membership.
- Get involved locally with your area USGBC chapter. National membership provides discounted rates for chapter membership.
- Participate in legislative outreach efforts and stay up to date with federal and local government green building programs.

### National Membership Pays Off

National members get valuable discounts on USGBC and LEED® programs and publications. Save hundreds to thousands of dollars on:

- Greenbuild International Conference & Expo
- LEED Training Workshops
- LEED Reference Guides
- LEED AP Exam
- LEED Project Registration and Certification Fees
